

VENUE® MAX is a concentrated formulation offering the same excellent performance as VENUE with the benefit of no tank mixing concerns. With low use rates and less packaging, VENUE MAX is easier-to-use and is more efficient in controlling suckers and troublesome weeds. VENUE MAX offers reduced risk of volatilization with excellent crop safety to young plantings of vines, nut trees, and stone fruit.

### Key Benefits of VENUE MAX

- No tank mixing concerns
- A concentrated solution that requires less product per acre
- Adds power to the tankmix, broadening the spectrum of weed control
- Excellent control of tough weeds and suckers
